

Purity You Can Count On

Introduction

As the largest white mineral oil producer in the world, Petro-Canada has significant experience in supplying large bulk white oil customers. Petro-Canada produces PURETOL White Mineral Oils from start to finish – from integrated feedstock processing to certified white oils. We deliver directly to our customers through our dedicated infrastructure and efficient distribution system.

Properties and Uses

Because of their high purity and unique properties, PURETOL White Mineral Oils find use in a wide variety of industries and applications including personal care products, cosmetics, pharmaceuticals, food processing and plastics.

PURETOL White Mineral Oils are highly refined, colourless and odourless.

Credentials

- Our PURETOL line meets the requirements of the European Pharmacopoeia (EP)
- USP¹ and NF¹ grades meet FDA 21 CFR 172.878 and FDA 21 CFR 178.3620(a) requirements for direct and indirect food contact
- Select PURETOL grades are NSF¹ 3H and/or HX-1 registered and are available for use as components in various food applications
- All PURETOL grades available from our Dordrecht terminal are Kosher Pareve and Halal certified

¹ USP (U.S. Pharmacopoeia; mineral oil), NF (National Formulary; light mineral oil), NSF (NSF International)

Experience

- Petro-Canada is the largest white oil producer in the world
- Over 30 years of experience producing base oils which are among the purest in the world
- Over 10 years of experience supplying large bulk white oil customers
- Fully integrated manufacturer – feedstock through to finished product

On the surface
all white mineral oils appear
to be the same.

Purity You Can Count On

Logistics

- Strategically located to deliver bulk shipments by rail, truck and marine globally to meet your needs
- Dedicated white oil infrastructure and distribution system

Quality

- Tailored specific solutions to meet customers' needs through custom product development
- ISO 9001, ISO/TS 16949 registered quality system
- ISO 14001 registered environmental management system

A full range of PURETOL White Mineral Oils is available in a variety of grades to meet our customers' requirements.

TYPICAL PERFORMANCE DATA

Property	Test Method Product Code	PURETOL GRADE					
		PURETOL 9D PTL9D	PURETOL 11D PTL11D	PURETOL 22D PTL22D	PURETOL 350D PTLP35D	PURETOL 380D PTLP38D	PURETOL 550D PTLP55D
Density @ 15°C, kg/L	ASTM D4052	0.858	0.862	0.864	0.862	0.868	0.870

Other viscosity grades are available. In addition, Petro-Canada offers a full range of North American credentialed White Mineral Oils. Consult your Sales Manager.

Plastics & Elastomers

High viscosity PURETOL grades deliver low volatility and consistent quality. Ideal as internal and external lubricants in polystyrene, PVC*, polyolefins and thermoplastic elastomers, they can improve and control melt flow behaviour. Offering high purity, excellent stability and a colourless nature, PURETOL can be used as a plasticizer, catalyst carrier and pigment dispersant.

*Patented replacement for paraffin wax in PVC pipe extrusion (Canadian Patent #2416268; US Patent #6,663,931)

Pharmaceuticals

With their unique properties, PURETOL White Mineral Oils may be used in many pharmaceutical applications: capsule lubricants, pelletizing aids and ointment bases. Meets EP, USP and NF requirements.

Health & Beauty

PURETOL White Mineral Oils provide effective bases for personal care and cosmetics products where they are used to lubricate, soften, smooth, moisturize, and add emolliency. Uses range from baby oil, skin lotions and sunscreen to hair care products, lipstick and makeup.

Adhesives

PURETOL White Mineral Oils can also be utilized in hot melt and pressure sensitive adhesive technology where they can be used as plasticizers.

Food & Agriculture

Select PURETOL White Mineral Oils meet NSF 3H requirements. PURETOL White Mineral Oils are also Kosher Pareve and Halal. Uses include: protective coatings on fruits and vegetables, defoamers and meat packing. The same product attributes – high purity and odourless – that allow PURETOL to be used in the food industry also make it a welcome part of the agricultural segment. Primary applications include dust suppression in grain silos and animal feed.

Purity You Can Count On

Additional Markets

PURETOL White Mineral Oils, with their unique properties, are ingredients of choice in many additional industries and applications. Textile fibre lubricants, cleaners and polishes, and leather processing are just a few.
